

Greetings from the Chamber

MARTIN COUNTY CHAMBER OF COMMERCE

Chamber Developments

Things are still progressing nicely at the chamber. Each quarter when I finish my article for the next newsletter I think I will not have much to say by the time the next newsletter comes around. After about two weeks it is quite evident that that will not be a problem because the business community here in the county constantly amazes me with its vitality and stamina despite the economy. Instead of having little to speak about, I have to narrow down the items of interest. The laptop computer contest sponsored by local businesses was a success. An outstanding young lady from Plymouth won the contest, Katheryn Woolard, a senior at Lawrence Academy was the winner and she will represent the chamber and her school with honor. Katheryn will be attending college next year and plans to be an international business lawyer. We wish her the best and would like to thank all of the contestants for participating. I wish we were able to give them all a reward for their efforts. Several people have inquired if we were going to have the contest next year but at this time I am unsure. If business owners are willing to sponsor it again, we will be glad to do our part here at the chamber.

Some Facts:

- If you increase customer retention by just 5%, your profits will increase 100%
- U.S. population growth is projected to be only 1.1% in the next twenty years.
- Disposable income in the U.S. is growing only 2% every year.
- U.S. businesses will invest more than \$1 billion this year on computer technology—just for customer service departments.

These interesting bits of information basically mean that the number of customers is dwindling. This is why customer service is today's competitive advantage. If we don't have masses of potential customers, we better keep the ones we do have happy—even ecstatic.

NEW MEMBER BREAKFAST at Sunnyside Oyster

Jarmal Phelps & David Whitley

Bill and Sandra Jones were the gracious hosts at the New Members Breakfast on October 20. Over twenty people were in attendance and a great breakfast from Shaw's Barbeque House was served. It was a good time for everyone to meet other business owners and network about what is going on in their businesses and throughout the county.

LUNCH & LEARN Seminar

The worldwide presence of you and your business is becoming of greater importance. People want to know more about you before they trust you with their money, just as we pay more attention to what "others" have said about a product than the advertised description when we are considering buying a product online.

~Martin Brossman

Facebook & Other Media for Business

The Martin Community College SBC and the Martin County Chamber of Commerce sponsored a Lunch & Learn Workshop on Tuesday, Oct. 26 at the TeleCenter in Williamston, NC. About 20 business owners, realtors, and internet users attended the workshop to learn how to setup and maintain facebook accounts. Facebook, MySpace, LinkedIn, and Twitter were also addressed at the workshop. It was a power packed session which was designed to get your social media traffic a kick-start.

Martin W. Brossman is a Success Coach, Trainer, and Author from Raleigh, NC and will be here again in the Spring.
